Edition: 09/2017 | Subject to change | Pictures may differ from the delivered product and may partly show special equipment.

**We make cash flow.**

## The clever, compact self-service Coin Counter.

**Its simple operation enables customers to make deposits without guidance.** Thanks to the thoughtful design, it is possible to make fully automatic deposits of mixed coins - without even pressing a button! After the deposit, the machine automatically prints a receipt\*, which for example can be immediately redeemed in the retail sector, and brings in additional sales.

- Automatic start, stop, and receipt printing\*
- Clear, illuminated display (only for standalone unit)
- Requires little space due to low system width
- The straight, simple design fits the ambience
- Maximum system availability
- High counting speed up to 900 coins/minute

**Highlight:** Only 34 cm width! Height 98 cm, Depth 50 cm.

Automatic printout of the credit slip\*

\* with optional printer

## ProDeposit will convince you with its perfected technology.

Extensive cleaning mechanisms help to maximise availability. Due to its slim design the system can be used in the smallest space.

- Proven coin transport system
- Counting speed of up to 900 coins/min
- Cleaning tracks and integrated blockade check
- Thermal printer (optional)
- Security for foreign coin identification

Particularly service-friendly design

- Separate coin and technology unit
- Highest security against vandalism and burglary
- Optional: Safe bags, coin bags or coin containers

Coin counting unit with overflow protection and motorized cleaning mechanism
